ST. LAURENT GIN

43% *alc./vol.*

All-natural maritime Gin
Infused with laminaria seaweed

Product *of* Canada
750*ml* & 700*ml*

St. Laurent Gin is a breath of salt-sea air, of powerful herbaceous and floral notes interspersed by a pine aroma reminiscent of the Quebec boreal forest. It's a complex gin born of an unlikely union of spices hailing from the four corners of the globe and seaweed of the St. Lawrence River.

Distilled in small batches in Rimouski, St. Laurent Gin is an authentic all-natural hand-crafted gin. After a steam infusion of exotic spices in a custom designed gin-basket, our gin is slowly macerated with laminaria seaweed hand-harvested in the Bas-Saint-Laurent region.

Juniper • Coriander • Angelica root • Cassia bark
Licorice • Lemon • Bitter orange • Cubeb berry
Grain of paradise • Laminaria seaweed (kombu)

Tasting notes

An herbaceous and floral approach gives way to pine forest notes followed by pastry aromas, fragrances of citrus as well as a peppery edge. Laminaria seaweed, also called Kombu and Devil's apron, gives St. Laurent Gin its characteristic greenish hue and a mineral and slightly salty finish.
